

Microsoft and Lumen Technologies Announce Strategic Partnership to Accelerate 5G Network Deployment

Microsoft and Lumen Technologies have announced a strategic partnership to accelerate 5G network deployment and enhance cloud services for Lumen's customers.

On July 13, 2021, [PRNewswire](#) -- [Lumen Technologies](#) (NYSE: LUMN) announced a strategic partnership with Microsoft Azure. The partnership will enable Lumen to offer its customers a more integrated and secure cloud experience. Microsoft will provide Lumen with access to its Azure cloud platform, including Azure Cloud Managed Services, Azure Security Center, and Azure Active Directory. Lumen will also provide Microsoft with access to its 5G network capabilities, including edge computing and network slicing.

Lumen's Chief Executive Officer, Shaun Andrews, said, "This partnership with Microsoft Azure is a significant milestone for Lumen. It will enable us to offer our customers a more integrated and secure cloud experience, which is essential for their success in the digital economy. We are excited to see the results of this partnership and the new opportunities it will create for our customers and our company."

Lumen's Lumen Edge Experience Center, which is a leading provider of edge computing services, will be the first to offer Microsoft Azure cloud services. This partnership will also enable Lumen to offer its customers a more secure and compliant cloud experience, as Microsoft Azure is a leading provider of cloud security and compliance services.
