

Lumen's ultra-fast fiber move is massive

Quantum Fiber expanding fiber-fast speeds to millions in U.S. cities

DENVER, Nov. 16, 2022 /[PRNewswire](#)/ -- [Lumen Technologies](#) (NYSE: LUMN) is aggressively expanding its premier residential and small business fiber internet service, [Quantum Fiber](#), in more than 30 cities and metro areas in the U.S. This expansion delivers millions of new consumers access to the company's existing and growing fiber footprint. Quantum Fiber brings a superior offering of reliable, ultra-fast gigabit speeds critical to today's technology demands, including the recent launch of new, multi-gig speed offers currently available in select locations.

Lumen Technologies is expanding Quantum Fiber internet service to residents and small businesses in more than 30 cities.

Quantum Fiber is a subscription-based, prepaid, online platform for delivering secure, premier fiber-based connectivity to residents and small businesses.

- Leveraging Lumen's vast fiber network, the investment is underway and expected to reach millions of residents and small businesses.
- We continue to invest in high-speed broadband and IP network services to meet customers' growing demands for today's technologies and speeds.
- We know how important connectivity is to students, families, schools, libraries, and communities and are committed to doing our part to help close the digital divide.

"Quantum Fiber internet is a game-changer. Our massive investment provides the speed, security and reliability residents and small businesses need today and the agility a superior fiber connection brings to meet their future needs," said Maxine Moreau, Lumen president, Mass Markets. "We're incredibly excited to expand our fiber footprint - connecting our customers to what matters most in their lives."
