

## CenturyLink wins Datacenter Dynamics 2016 Energy Efficiency Improver's Award

**July 20, 2016**

CenturyLink won [The Energy Efficiency Improver's Award](#) in connection with our efforts to increase energy efficiency at our Columbus, Ohio, data center. The award, part of a series that calls out worldwide recognition to outstanding individuals, teams and projects, was given to us by [Datacenter Dynamics](#), an established global source of news and insight on data centers. Upgrading and replacing an existing cooling system using chiller-in-a-box yielded significant returns to the business and environment.
