

CenturyLink Wins DISA Network Fair Opportunity Awards

July 20, 2016

CenturyLink won four fair opportunity award decisions from the U.S. Defense Information Systems Agency (DISA) to provide network and data transmission services. The task orders, which run through May 2017, were awarded via the General Services Administration's Network Enterprise contract and are valued at up to \$10 million. CenturyLink will provide Ethernet private line and Internet Protocol services to support advanced data services for global Defense Information Systems Network users in the continental United States.
