

Lumen presented the 2021 Frost & Sullivan Best Practices Award for Ethernet Services

July 7, 2021

Frost & Sullivan recognized Lumen with the 2021 Market Leadership Award for United States Business Carriers, Ethernet Services. This award highlights Lumen's industry-leading Ethernet services, enhanced with software-defined networking capabilities that provide customers with best-in-class solutions. The Frost & Sullivan Market Leadership Award recognizes the company that achieved the greatest market share resulting from outstanding performance, products, and services.
